## COMMUNICATION

The European Patent Office herewith transmits as an enclosure the European search report for the above-mentioned European patent application.

If applicable, copies of the documents cited in the European search report are attached.

☒ Additional set(s) of copies of the documents cited in the European search report is (are) enclosed as well.

## REFUND OF THE SEARCH FEE

If applicable under Article 10 Rules relating to fees, a separate communication from the Receiving Section on the refund of the search fee will be sent later.

The supplementary search report has been based on the last set of claims valid and available at the start of the search.			
Place of search MUNICH		Date of completion of the search 7 October 2002	Examiner Mabit, H

CATEGORY OF CITED DOCUMENTS

X: particularly relevant if taken alone

Y: particularly relevant if combined with another document of the same category

A: technological background

O: non-written disclosure

P: intermediate document

T: theory or principles underlying the invention

E: earlier patent document, but published on, or after the filing date

D: document cited in the application

L: document cited for other reasons

&: member of the same patent family, corresponding document

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. Claims: partial claims 1-10

A human protein comprising an amino acid of SEQ ID N°2, the DNA of SEQ ID N°1 encoding said protein. Said protein (i) having the capability to activate NF-KB, (ii) displaying an activity of serine/threonine kinase and (iii) having the capability to bind I-traf and to phosphorylate I-traf. A pharmaceutical composition comprising said protein and the use of said protein in the manufacture of a medicament.

2. Claims: partial claims 1-10

A mouse protein comprising an amino acid sequence of SEQ ID N°4, the DNA of SEQ ID N°3 encoding said protein. Said protein (i) having the capability to activate NF-KB, (ii) displaying an activity of serine/threonine kinase and (iii) having the capability to bind I-traf and to phosphorylate I-traf. A pharmaceutical composition comprising said protein and the use of said protein in the manufacture of a medicament.

### CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing more than ten claims.

- ☐ Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims and for those claims for which claims fees have been paid, namely claim(s):
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims.

### LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- ☐ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☒ As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
- ☐ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
- ☐ None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 99 94 9429

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
